

K R A A M Z O R G

The Dutch postpartum maternity care at home is unique in the world. Apart from the Netherlands, there is no other country in the world where women receive a nurse who supports them the first 8-10 days after birth. The maternity nurse will guide you and your partner how to take care of your baby and helping you with (breast) feeding.

Sign up for kraamzorg

Register with the maternity care already after your dating scan. Do this as early as possible, preferably when you are about 12 weeks pregnant, but no later than the 16th week. This will give you the best chance that you will receive the number of hours of maternity care you need. It may happen that you get fewer hours when it's very busy, for example during holiday periods or during a baby boom. You always receive the statutory minimum maternity care: 24 hours spread over 8 days. We work with many different maternity agencies, such as the **Kleine Amsterdammer**, **Kraamvogel**, **Natuurlijke Kraamzorg**, **Mammae Mia**, **ProCare** and many others.
